**EDITOR'S LETTER** Ah, the beauty of an autumn day! The leaves have fallen, and that crispness in the air tells us that winter will soon arrive.

As our hearts fill with anticipation of holiday gatherings, our fingers fly with knitting gifts of love. In this issue, we have projects large and small which may inspire you to cast on for someone who will appreciate your efforts. One clever reader reports that she knits hats, scarves and other small items all year long—and then offers the basketful to family and friends to make their choice of the lot! Each person is delighted with his or her gift, and no wrapping is required.

Instead of running to the mall, join in the fun of making gifts yourself. New baby in the family? Make a Christmas stocking or a cardigan. Need a thoughtful gift in a hurry? Gifting a great bottle of merlot? Wrap it in a little knit bag! Attending a holiday gala? A simple shawl is all you need over a little black dress. Need a jacket with pizzazz? We have all that and so much more!

I want to thank those who opened their lovely homes for our photo crew for this issue: Neil and Moti Kahanev and Helen and Nancy Wells. Your hospitality is deeply appreciated.

Until we meet again,

*Barb*

### Tops & Toes

Edited by Karl Doh Martin  
(\$19.95 House of White Books,  
176 pages)

Man and socks are far so knit? Who better may to use a brilliantly small amount of yarn, play with color and style, and still have a beneficial finished project to show for it?

From ballies to ears, this collection of more than 50 patterns provides a one-stop resource for all your head-and-foot knitting needs. Lots of color, lots of style and yards of easy weight will keep you knitting until spring.

The revised spiral (2nd-1st) binding is perfect for a knitting book. Close-up photographs allow plenty of detail, and the clearly illustrated techniques sections help you along with specific techniques used in the book. If it's been a while since you've knit socks—or if you've never knit up—your kid and what you need for top, down or loop-up socks, worked on double-point needles or the magic loop, short-row knit and purl—and making the toe.

### Japanese Inspired Knits: Marianne Isager Collection

by Marianne Isager  
(\$29.95 Interweave Press,  
144 pages)

Danish knitter and designer Marianne Isager takes traditional motifs and traditions from Japan as her inspiration for the knitter designs in this lovely book. *Japanese Inspired Knits* combines classic and fashion-forward shapes with fun knitting techniques like cables, brioche, intarsia and double-knitting for a fascinating knitting adventure for intermediate and advanced knitters. Schematics, illustrations and plenty of photographs suggest the written instructions (which have

been translated into standard pattern English). Take time to admire the photographs and copy that introduction each chapter—you'll learn intriguing facts about Japanese culture. Make this a gift for yourself or your favorite knitter!

### The Best-Dressed Knitted Bear: Dozens of Patterns for Teddy Bears, Bear Costumes, and Accessories

by Emma King  
(\$19.95 Potter Craft, 64 pages)

Your favorite child or teddy bear enthusiast will squeal with delight when they see the cute bear ensembles you make for them this holiday season. The *Best-Dressed Knitted Bear* provides instructions for not only six different teddy bears but also a variety of costumes and accessories. There's a bear for every knitting level, from the simple small bear to the more complex large bear.

What really makes the book special, however, are the outfits. The toothy bear outfit includes a tooth pouch, the panda outfit includes its own puffy shirt and sword, and the ballerina has lace-up slippers. You'll also find a cheerleader graduation bowdye and others—18 outfits in all. Using small amounts of yarn from your stash, you can make a whole family of well-dressed bears for everyone on your gift-giving list.

## Pattern Notes

Circular needle is used to accommo-  
date large number of stitches. Do not  
join work back and forth in rows.

Shawl is knitted flat in garter stitch  
(knit every row) from lower edge to  
top. Self-finishing scalloped border  
is achieved by casting on additional  
stitches at intervals on each edge,  
using the Cable Cast-On method  
described in the pattern form, curved  
shaping over shoulders.

A row counter is recommended for  
keeping track in the pattern.

Mark right side of work with a  
piece of contrasting yarn.

# How Did They Do That?

## Self-Patterning Sock Yarns

If you have become a sock knitter, you are in good company. The internet has been able to keep up with everyone's rising love for the needles with tiny toes, but many newcomers to the love of the yarn, which produces itself? There is a magical quality about knitting with one yarn and having a multicolored wonder flow from your needles!

Knitters in the United Kingdom long ago perfected Fair Isle work, with many colors of yarn weaved into elaborate designs. Today's space-dyed yarns yield results which mimic these challenging motifs without the necessity of yarn changes.

Hand-dyed yarns, colored like natural dyes, are generally created manually with the yarn in large loops so the colors repeat in repeating lengths. Concentrated in only a few factories, technology in the yarn business has made it possible to do what is called continuous print dyeing. The yarn is drawn through a machine in a continuous ribbon while rollers apply colors in preselected lengths. Care is taken to avoid overlapping the dyes which would muddy the colors. The rollers determine the length of the stripes, and are designed to make the length repeat in that a second of color is certain number of times. These stripes are predictable enough to permit socks which match almost perfectly, provided you do a little thinking when you cast on the second sock.

When sock mania hit the few factories capable of this technology were hard-pressed to keep up with the demands of the fast world. The yarns can now be found in any color combination, fiber or yarn weight.

The yarn's full head may provide a preview of the way the pattern will evolve, but there is no limit to the possibilities. The completed sock can be dramatically different from the look of the yarn in the skein.

Building a basic sock pattern often yields a striped pattern, but adding a bit of lace or cable can greatly alter the effect. Your knitting will determine the final result.

There are other yarns which offer patterns which come and go as if by when, moving here and there in a fleeting motion.

Merino, or the same are knitted strands of pure cashmere in a flat piece of knitted fabric meant to be unworled and knit directly into socks. No rolling into balls is needed. The slight linking of the run disappears as the knitting progresses.

One company has hand-dyed blanks, ready to knit in a wide array of color choices. Another is offering white blanks ready to dye in your favorite shades. Either way, no two pairs will be exactly alike.

Since not everyone wants to knit socks, these fine yarns can also be used creatively to make mittens, gloves, hats and baby clothing. The effect will vary with the width of the feet, but if you enjoy the look of the stripes, give them a try.

The yarn dyers have provided all

that is necessary to achieve interesting results every time and have exploded the interest of knitters world-wide. We can easily produce spectacular socks using one yarn alone. The concept has been widely embraced and more of us are just plain raving about knitting socks! ■

Hat begins with a foundation row  
worked on larger needle to ensure  
loose cast-on. Sewer border is  
worked back and forth in rows on

smaller needle and then joined into rounds for circular knitting. Because cable patterns pull in, hat body is worked as a loose gauge on larger needles.

A rear counter is useful for keeping track of cable-pairing counts.

For close weaves, change to double point needles when stitches no longer fit comfortably on circular needle.

A chart is included for those preferring to work paths in stock form as a chart:

## Magic Loop Method

Use a circular needle at least 30 inches in length. Stitches are knitted from one end of the needle to the other end while maintaining a loop of cable between one-half of the stitches on the other half. When both the stitches on one half are knit and complete the round on the other half.

## Working Short Rows

### Whisperman (2x2)

This method of working the shoulder wedge takes on a diagonal bound-off color.

#### Work as follows:

Work to indicated turning point. Take yarn to right side of fabric on both sides (yes, it does go both ways). Slip next stitch past two take yarn to wrong side of fabric (Photo A).

Turn work. Slip stitch, purview to right needle (Photo B). Purview from "A" when short rows are completed.

When all edges are completed, work across row using the following method to work wrap and stitch together.

On one side, insert front right needle into wrap and knit stitch and knit them together (Photo C).

On past side, insert front right needle into wrap from right side. It is wrap left in hole, then knit stitch and wrap together.

**knit wraps:** On RS (row), pick up wrap from hole to back and knit together with wrapped st. On WS rows, pick up wrap from the back, then knit it together with wrapped st.

## Kitchener Stitch

This method of weaving with two needles is used for the toes of socks and for seams. It weaves the edges together and forms an invisible line of stockinette stitch. Slide all stitches evenly onto two knitting needles—one behind the other. Thread yarn into tapestry needle. Hold needles with wrong sides together and work from right to left as follows:

#### Step 1:

Insert tapestry needle into first stitch on front needle as to pull. Draw yarn through stitch, leaving stitch on knitting needle.

#### Step 2:

Insert tapestry needle into the first stitch on the back needle as to pull. Draw yarn through stitch and slip stitch off knitting needle.

#### Step 3:

Insert tapestry needle into the next stitch on same (back) needle as to knit, leaving stitch on knitting needle.

#### Step 4:

Insert tapestry needle into the first stitch on the front needle as to knit. Draw yarn through stitch and slip stitch off knitting needle.

#### Step 5:

Insert tapestry needle into the next stitch on same (front) needle into pull. Draw yarn through stitch, leaving stitch on knitting needle.

Repeat Steps 2 through 5 until all stitches are left on each needle. Then repeat steps 2 and 4. Finish-off. When stitches should be the same look as adjacent knitted stitches.

## 3-Needle Bind-Off

Use this technique for uniting two edges together such as when joining a shoulder seam. Hold the edge stitches on two separate needles with right sides together. Weave third needle into together a stitch from the front needle with one from the back.

Repeat, knitting a stitch from the front needle with one from the back needle once more.

Slip the first stitch over the second.

Repeat, knitting a front and back pair of stitches together then bind one off.

# We've included the basics here for your reference.

## Long Tail Cast-On

Inserting an end almost as long as for each stitch to be cast on, make a tail loop on the right needle.

Place the thumb and index finger of your left hand between the yarn tails with the long yarn end over your thumb and the strand from the skein over your index finger. Slide your other fingers over the skein, a foot from against your palm. Spread your thumb and index fingers apart and draw the yarn over a "Y".

Place the needle in front of the strand around your thumb and bring it under both strands. Carry the needle over and under the strand on your index finger.

Draw through loop on thumb.

Loop the loop from your thumb and draw up the strand to form a stitch on the needle.

Repeat this step as many times as the number of stitches indicated in the pattern. Remember to count the beginning slip stitch as a stitch.

Pull yarn loop through the strand with right needle point. Slide the strand off the left needle. The next stitch is on the right needle.

## Purl (p)

With yarn in front, insert tip of right needle from back to front through next stitch on the left needle, bring yarn around the right needle, count down knit. With right needle, draw yarn back through the stitch.

Slide the strand off the left needle. The new stitch is on the right needle.

In the usual manner, but don't remove the stitch from the left needle. Place right needle behind left needle and knit again into the back of the same stitch. Slip original stitch off left needle.

## Increase (purl)

Put the cast stitch in the usual manner, but don't remove the stitch from the left needle. Place right needle behind left needle and purl again into the back of the same stitch. Slip original stitch off left needle.

## Invisible increase (M1)

There are several ways to make or decrease one stitch.

## Make 1 with Left Needle (M1L)

Insert left needle from front to back under the horizontal loop between the last stitch worked and next stitch on left needle.

With right needle, knit into the back of this loop.

To make this increase on the purl side, insert left needle in same manner and purl into the back of the loop.

## Make 1 with Right Needle (M1R)

Insert left needle from back to front under the horizontal loop between the last stitch worked and next stitch on left needle.

With right needle, knit into the front of this loop.

To make this increase on the purl side, insert left needle in same manner and purl into the front of the loop.

## Make 1 with Stocking Loop over the right needle

Knit over thumb, make a loop over the right needle.

## Cable Cast-On
